

Collection: 018011; Video Rate:29.97 fps; Master Digital Formats: 1920 x 1080 Uncompressed 10-bit 4:2:2. Prores(HQ); Acquisition Format: 35mm. Film

018011-EX07C029: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU embryo appears past egg and travels past camera. Mouth and gills prominent. View from below. Endoscopic lighting

018011-EX07C032: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU embryo appears past egg and travels past camera. Drops out frame. Mouth and gills prominent. View from below. Endoscopic lighting

018011-EX07C035: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Wide view down on shark embryo travelling between two eggs. Camera moves into BCU eye. Endoscopic lighting

018011-EX07C036: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU eye. Head in profile. Endoscopic lighting

018011-EX07C038: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Wide view down on shark embryo travelling between two eggs. Camera moves into BCU eye and open mouth. Endoscopic lighting

018011-EX07C039: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU head, in profile, with mouth opening and closing. Swims past camera Endoscopic lighting

018011-EX07C040: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Wide view down on shark embryo travelling between two eggs. Camera moves into BCU eye and mouth opening and closing. Head in profile. Endoscopic lighting

018011-EX07C043: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU mouth (from underside) opening as embryo rises from bottom of frame pushing eggs aside. Endoscopic lighting

018011-EX07C045: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU head in profile with teeth gripping and shaking egg. Head vertical. Endoscopic lighting

018011-EX07C046: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU head in profile with teeth attempting to grip egg. Head vertical. Endoscopic lighting Not very convincing

018011-EX07C047: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU head semi-profile facing away from camera in an oblique lateral view. Attempting to grip egg. Endoscopic lighting

018011-EX07C048: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU head dorsal view. Attempting to grip egg. Vertical in frame. Endoscopic lighting

018011-EX07C051: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Medium view head, in profile, forces its way between two eggs. Moves past camera in close up. Vertical in frame. Endoscopic lighting

018011-EX07C052: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Medium view head, in profile, forces its way between two eggs. Moves past camera in close up. Horizontal in frame. Endoscopic lighting

018011-EX07C054: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU vertical strike at egg up through frame. Mouth opens. Endoscopic lighting

018011-EX07C056: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Mid view as shark strikes towards camera and off top edge of frame. Mouth opens. Endoscopic lighting

018011-EX07C057: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Mid view as shark strikes towards camera and below bottom edge of frame. Mouth opens. Endoscopic lighting

018011-EX07C059: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Wide view embryo approaches egg and camera into BCU mouth, Mouth opens then vertical strike at egg past camera. Endoscopic lighting

018011-EX07C060: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU head in profile with teeth gripping and shaking egg. Head diagonal. Lets egg go at the end of the shot. Endoscopic lighting

018011-EX07C061: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU shark gripping the body of a sibling in its teeth. Blood. Camera moves backwards along the body of the victim to its gills to mid view of predator and victims yolk sac. Endoscopic lighting

018011-EX07C062: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Mid view shark worrying at the body of younger victim. Endoscopic lighting

018011-EX07C063: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Shark lunging at side of younger sibling. Endoscopic lighting Cuts on bite.

018011-EX07C065: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark flicking away between two eggs. Wide dorsal view with shark embryo vertical in frame. Endoscopic lighting

018011-EX07C066: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark flicking away between two eggs. Wide profile view with shark embryo horizontal in frame. Endoscopic lighting

018011-EX07C067: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark flicking away between two eggs. Mid profile view with shark embryo horizontal in frame. Endoscopic lighting

018011-EX07C068: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark swimming away between two eggs. CU profile view with shark embryo horizontal in frame. Myotomes (muscle) visible. Endoscopic lighting

018011-EX07C072: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark swimming slowly above two eggs. Swims out of frame at the end. Of the shot. CU semi -profile view with shark embryo diagonal in frame. Endoscopic lighting

018011-EX07C073: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark swimming slowly above two eggs. Swims out of frame at the end. Of the shot. CU profile view with shark embryo horizontal in frame. Endoscopic lighting

018011-EX07C074: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark swimming slowly above two eggs. Swims out of frame at the end. Of the shot. Wide profile view with shark embryo horizontal in frame. Endoscopic lighting

018011-EX07C075: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark swimming across gap between two foreground eggs. Mid profile view with shark embryo horizontal in frame. Myotomes (muscle) visible. Endoscopic lighting

018011-EX07C076: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Tail of shark swimming across gap between two foreground eggs. CU profile view with shark embryo horizontal in frame. Myotomes (muscle) visible. Endoscopic lighting

018011-EX07C078: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU tail of younger sibling. Shark lunges in (profile) from left frame and grips victim. Endoscopic lighting No blood.

018011-EX07C079: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU tail of younger sibling gripped in jaws of older sibling. Blood Endoscopic lighting

018011-EX07C080: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Mid view as shark swims towards and past camera. Bloody remnants can be seen in moving jaws. Endoscopic lighting

018011-EX07C081: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU Head in profile. Jaws gripping and ripping egg to release yolk. Endoscopic lighting

018011-EX07C082: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU. Head in profile. Jaws gripping and ripping egg to release yolk. Endoscopic lighting

018011-EX07C083: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. BCU. Head in profile. Jaws gripping and ripping egg to release yolk. Endoscopic lighting

018011-EX07C084: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. Mid view jaws chomping and releasing yolk. Shark darts under camera. Endoscopic lighting

018011-EX07C087: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU Head in profile. Jaws gripping and ripping egg to release yolk. Endoscopic lighting

018011-EX07C088: Silicone model of an early developmental stage of the Tiger Shark eating eggs and younger siblings whilst still in the womb. CU Head (dorsal view). Jaws gripping and ripping egg to release yolk. Endoscopic lighting
