

Collection: 018015; Video Rate:29.97 fps; Master Digital Formats: 1920 x 1080 Uncompressed 10-bit 4:2:2. Prores(HQ); Acquisition Format: 35mm. Film

018015-EX04C099: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Move in from wide view to CU head and eye in profile. Move down over body. Endoscopic lighting.

018015-EX04C100: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile. Move from beak to eye to ear. Endoscopic lighting.

018015-EX04C101: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide lateral view past foot to head. Endoscopic lighting. Faint backlight to head and yolk sac.

018015-EX04C103: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view from below feet to head. Move in to CU head and eye. Endoscopic lighting. Wire visible.

018015-EX04C104: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view profile of foot and flipper. Flipper moving. Endoscopic lighting.

018015-EX04C106: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. BCU profile. Beak closing. Endoscopic lighting.

018015-EX04C107: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view profile of leg and flipper. Move to CU eye and beak opening and closing. Endoscopic lighting.

018015-EX04C108: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile. Tail with developing feathers. Endoscopic lighting.

018015-EX04C109: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view. Profile. Move from head to tail. Endoscopic lighting.

018015-EX04C112: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU lateral move as camera reverses down the body from eye past flipper and leg to semi-dorsal CU of tail with developing feathers. Endoscopic lighting.

018015-EX04C113: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU head on to head. Move away close to flipper to mid view of tail and feet. Endoscopic lighting. Wire visible.

018015-EX04C114: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile anus. Endoscopic lighting.

018015-EX04C115: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU move from yolk sac with umbilical cord to profile head. Move to leg. Endoscopic lighting. Wire visible.

018015-EX04C116: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view from behind tail of dorsal side of the chick. Endoscopic lighting.

018015-EX04C117: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view from below feet of looking at umbilicus and cord. Move forward to CU of front of head, beak and eyes. Endoscopic lighting. Wire visible.

018015-EX06C003: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide profile of recumbent chick on the yolk sac. Move in to CU head. Endoscopic lighting with sidelight.

018015-EX06C004: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide semi profile view of recumbent chick. Rotate to full profile. Endoscopic lighting with sidelight.

018015-EX06C005: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide semi profile view of recumbent chick. View from above head. Rotate through full profile to semi profile view from slightly below. Endoscopic lighting with sidelight.

018015-EX06C006: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide semi profile view of recumbent chick. View from above head. Rotate through full profile to semi profile view from slightly below. Slow rotation on frame. Endoscopic lighting with sidelight.

018015-EX06C007: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU move from above and behind the head over the eye and beak past flipper and to foot that twitches (several times). Endoscopic lighting. Wire visible.

018015-EX06C008: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile. Foot twitching. Endoscopic lighting. Wire visible.

018015-EX06C009: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile. Foot twitching. Move to CU eye. Endoscopic lighting. Wire visible.

018015-EX06C011: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view head in profile. Move in to semi profile CU head and eye. Endoscopic lighting.

018015-EX06C014: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view profile head. Move down the body to the tail (profile). Endoscopic lighting.

018015-EX06C015: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU rotate around head and move down to flipper. Endoscopic lighting.

018015-EX06C016: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Move out from frontal view of head to reveal feet with wide view up ventral side of the body between. Endoscopic lighting. Wire visible.

018015-EX06C017: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view of chick over foreground yolk sac. Feet moving. Endoscopic lighting.

018015-EX06C020: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. BCU eye. Move to semi-profile of beak. Endoscopic lighting.

018015-EX06C021: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU. Top view of beak. Head moves from side to side. Move down to CU profile head. Endoscopic lighting.

018015-EX06C022: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU looking down on top of beak. Move away to wide ventral view of body with feet close in foreground. Body flexes and scrunches up. Endoscopic lighting.

018015-EX06C023: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU moves around the profile of the body. Endoscopic lighting. Wire visible.

018015-EX06C025: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view move out from behind head looking down ventral side of the body. Travel down ventral surface to CU foot. Foot twitches. Endoscopic lighting. Wire visible.

018015-EX06C026: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view body. Semi profile. Flippers moving. Floating hold. Endoscopic lighting.

018015-EX06C030: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid frontal view of head. Reverse down body to show wide view looking along ventral surface towards the head. Feet large in foreground. Endoscopic lighting. Wires visible.

018015-EX06C031: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view past feet to head. Chick recumbent on yolk sac. Floating hold. Endoscopic lighting with sidelight. Wires visible.

018015-EX06C032: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide view past feet to head. Chick recumbent on yolk sac. Feet moving. Move past feet to frontal CU head. Endoscopic lighting. Wires visible.

018015-EX06C035: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU move over yolk sac vasculature to mid view head resting on yolk sac. Semi profile. Endoscopic lighting.

018015-EX06C037: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view flippers from between legs. Endoscopic lighting. Wire visible.

018015-EX06C038: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view tail with early feathers from directly behind. Endoscopic lighting.

018015-EX06C039: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view umbilical cord and chick's stomach with move flippers. Ventral up body from between legs. Endoscopic lighting.

018015-EX06C041: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU semi profile flippers moving. Particularly the foreground flipper. Endoscopic lighting. Air bubble on lens

018015-EX06C047: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Mid view. Rotate over top of head towards top view of beak with umbilical cord. Endoscopic lighting.

018015-EX06C050: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. Wide latero-ventral view up body with foot large in foreground. Move in to CU semi profile head. Endoscopic lighting.

018015-EX06C051: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. BCU eye (head in profile). Move to CU flipper moving. Endoscopic lighting.

018015-EX06C052: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU profile flipper and upper leg. Move past umbilical cord to head in profile. Head twitches. Endoscopic lighting.

018015-EX06C053: Silicone model of a mid developmental stage of a penguin chick with yolk sac inside the egg. CU body in profile. Start on feet twitching. Move up body to flippers and head. Head moving. Endoscopic lighting.
